Professional Summary

Computer Science student at the University of Ottawa with hands-on experience building scalable backend systems, AI-driven automation, and data-powered applications. Strong problem solver with advanced critical thinking abilities and a proven record of delivering measurable impact across automation, computer vision, and analytics projects. Execution-focused, fast learner, and effective collaborator in engineering team environments.

Education

University of Ottawa

Bachelor of Computer Science

Ottawa, ON

Sep 2024 – Present

Dawson College

DEC in Pure & Applied Science

Montreal, QC

Jan 2023 – May 2024

Experience

Freelance AI Automation Specialist

Upwork/Remote

May 2023 – Present

- Increased client lead conversion by 35% for real estate and recruiting agency clients by designing AI-driven automation workflows using Python, FastAPI, and Make.com integrations.
- Built and maintained API-centric CRM pipelines (Monday.com, ClickUp, Slack) with clear data contracts and error handling, improving process reliability and contributing to 40% ROI within 3 months.
- Integrated AI-assisted decision modules (classification, routing, enrichment) into production workflows, achieving 83.5% accuracy while maintaining low-latency, scalable performance.

Software Developer

HoopLytics

May 2024 – August 2024

Montreal, QC

- Developed a computer vision system using OpenCV & MediaPipe to detect basketball dunks/assists, achieving 92% accuracy and improving analyst review speed by 30%.
- Deployed a FastAPI REST API with layered architecture for ingestion, processing, and output, reducing system errors by 25%.
- Implemented a React dashboard that consumes backend APIs, improving feedback loops and workflow efficiency by 40%.

Office IT Support Specialist

Ad. Systemes S.A.R.L

Jul 2018 – Aug 2018

Casablanca, Morocco

- Diagnosed and resolved hardware/software issues, boosting workstation uptime by 40%.
- Standardized OS, security, and productivity tool deployments across 10+ systems/day, improving configuration consistency.
- Provided proactive technical support, reducing repeat IT issues by 20%.

Projects

Online Tutoring App Management System (MVP) | *Java, XML, Android SDK, SQLite, Firebase, UML* Planned: Sep 2026

- Led end-to-end UML system design for a multi-role platform (Student, Tutor, Admin) with strict access boundaries.
- Implemented layered Android architecture with Singleton pattern and client-role pattern management, delivering booking, approvals, cancellations, and rating features.
- Delivered iterative features using Agile sprints and GitHub releases, reducing development iteration time by 30%.

AI WorkForce Optimizer | *Streamlit, FastAPI, DeepSeek, Plotly, SQLite, Twilio*

Mar 2024 – Present

- Designed service-oriented backend architecture and decoupled predictive analytics modules, improving workforce allocation accuracy by 25%.
- Built interactive dashboards explaining AI predictions, reducing manager planning time by 60%.
- Integrated Twilio notifications & automated reports, increasing operational responsiveness by 35%.

AI Highlight Basketball Generator (MVP) | *OpenCV, FastAPI, MediaPipe*

Jan 2024 – Present

- Built an AI-powered basketball highlight extractor achieving 92% object and event detection accuracy, reducing manual editing by 70%.
- Exposed results via REST API for downstream UI & narration services, enabling seamless integration with dashboards.
- Designed sports data automation pipelines to generate performance insights and visualizations.

Skills

Programming Languages: Python, Java, C++, JavaScript, SQL

Data Structures & Algorithms: Arrays, Hash Maps, Linked Lists, Trees, Graphs, Recursion, Big-O Analysis

Backend & APIs: FastAPI, Node.js, REST API, GraphQL, Spring Boot

Databases: PostgreSQL, MySQL, MongoDB, SQLite, Supabase

Cloud & DevOps: Docker, Git, GitHub Actions, CircleCI, AWS, Firebase, Linux, Kubernetes

AI / Data: OpenCV, MediaPipe, scikit-learn, pandas, NumPy

Automation & Tools: Make.com, Zapier, n8n, ClickUp, Monday.com, Slack, Postman, JUnit, Thunder Client
